Opportunities for British Investment and Business exist in a variety of sectors including Infrastructure, Tourism, Ports, Power, ICT, Agriculture & Fisheries and export oriented Manufacture, amongst many others.

Sri Lanka is one of the most resource-rich, emerging economies in the world with excellent working environment, an educated & adaptable workforce supported by attractive investment incentives in a liberalized economic climate.

Mega development projects in the newly liberated North & Eastern Provinces restored to peace and stability attract special incentive opportunities.

Sri Lanka's strategic location and duty free access to the regional markets through free trade agreements especially with India and Pakistan makes it a coherent hub for business.
